

THE ORPHAN CIRCUS TECHNICAL RIDER

*The Orphan Circus is a magical, creepy circus that takes place in a junk yard.
Evening performances preferred!*

SOUND AND LIGHTING: We provide our own lighting and sound equipment. We need an electrical outlet (one 15 amp. circuit) to plug it into.

TYPES OF SPACES: The performance space can be a theater, a big room, a barn, a hall, a garagethere are many possibilities. We can adapt to most spaces.

1. the set is on the same level as the first row of audience
(If the stage is elevated, it must not be more than 30 cm high.)
2. the space is obscure when lights are out
3. if the show is scheduled outside, the performance space must be covered.
4. Our performance space is 6.5 meters wide (wall to wall) and 5 meters deep. The ceiling must be at least 2.75 meters high.

SEATING: The audience space needs to have raised seating that starts on the same level as the performance space (or 30cm below). The seating can either be simple bleachers (please see picture B) or formal chairs on raised platforms (see picture A). First two front rows can be on the same level, if necessary. Every row of chairs afterwards must be raised
The audience capacity : 80-100 (depending on space and types of seating).
Audience width: maximum 6 meters. Last row: no more than 5.5 meters from performance space.

For performances in Eastern Canada and U.S.A, les Sages Fous can provide bleachers for an audience capacity of 80 to 100..

SET UP: The organiser must provide two assistants for set up and break down. Time: at least 4 hours with two hours preparation time once completed (**6 hours in total**).

BREAKDOWN: 2 hours

GENERAL NOTES: It is not a show for children, it is a show for everyone (9 yrs old and up)

The organiser must provide a safe and secure (guarded) parking space for a truck of seven meters for the entire length of the agreement.

The organiser must provide a safe and clean dressing room that has access to a bathroom.
